

Physical Network Topology

Multi-Vendor Carrier Ethernet Interoperability Event 2012

Device Types

- Access device
- Aggregation device
- Analyzer/Traffic Generator
- Emulator
- IEEE 1588v2 Grandmaster
- Impairment tool
- Reference Clock
- Microwave radio system

Connection Types

- Clock link
- Gigabit Ethernet link
- Bonded SHDSL link

Network Areas

- MPLS-TP network
- Access network
- Ethernet Aggregation network
- ERPS Rings
